10-23-2011 TEAM W1  
DIGITAL CAMERA

Another year has passed, and we have again maintained an OSHA incident rate that is lower than our industry's average, but we are still not where we must be. So, I'm wondering; What makes a construction site really safe? A good safety man? Proper equipment? Training? And I know the answer; Yes, all of those things, but it all means nothing without **you**. Unless **you** perform your job safely, and unless **you** take action when you know of an unsafe condition, **we** will always be in danger.

Know that Waco will always provide what it takes to assure our safety, but also know that all of us at Waco are depending on **you**. I am proud to be associated with the dedicated team of professionals at Waco, not only for your many accomplishments, but also for your positive attitude toward a safe working environment.

Dan Walker  
President
